# Flash

Ready-to-Use Toilet Cleaner

CHEMROSE

Product Data Sheet

Flash is a ready-to-use, acid-based toilet and urinal cleaner with a lasting eucalyptus fragrance. Its thickened formula allows it to cling to steep surfaces easily, extending exposure time for a powerful, brightening clean. Flash contains highly biodegradable surfactants and will dissolve all type of deposits from porcelain, ceramic, and stainless-steel surfaces.

## BENEFITS

- ✓ Thickened formula to cling to steep surfaces
- ✓ Potent cleaning
- ✓ Long-lasting eucalyptus fragrance

## ENVIRONMENTAL CARE

Flash was developed from carefully selected ingredients providing many environmental benefits including:

- ✓ surfactants derived from renewable & regrowable resources
- ✓ cosmetic-grade dye
- ✓ low VOC
- × irritating fumes
- × ammonia
- × glycol ethers
- × nonyl phenol ethoxylates
- × free caustics
- × chlorine
- × heavy metal sequestering agents
- × phthalates

## PROPERTIES

**Colour:** Transparent blue liquid
**Odour:** Eucalyptus
**pH:** 2.0 - 3.0 (undiluted)
**Foam Level:** Thick, stable foam
**Viscosity:** Thick liquid

## AVAILABLE SIZES

Available in 5L

## HOW TO USE

| | AMOUNT TO USE |
|---|---|
| **Toilets** | Pour 60mls* of Flash into bowl and scrub with nylon brush. Flush the toilet after cleaning |
| **Urinals** | Apply neat* Flash to surface and scrub. Leave for five minutes to activate, then flush. |
| **Showers & Baths** | Apply neat Flash for the first time. Brush the product over all surfaces then leave for 2 minutes to activate. Rinse off. Use Flash at 1 in 5 for regular cleaning. |

*Flash can be diluted 1:1 parts water for regular cleaning.
Do not use on marble or terrazzo shower walls or floors

NOTE: This is a guide only. Concentration may be varied according to the degree and persistence of soilage.

## WHERE IT WORKS

Flash is a thickened, mild-acid cleaner for toilets, urinals, tiled washroom floors, walls, baths, basins and shower recesses. It dissolves all types of deposits from porcelain, ceramic and stainless steel surfaces, and leaves surfaces perfumed with a eucalyptus fragrance.

## HOW IT WORKS

Flash's special formula will dissolve rust but will not affect stainless steel, even during periods of prolonged contact. The high viscosity formula allows Flash to cling to vertical surfaces, extending exposure time for a cleaner result.

Chemrose maintains Safety Data Sheets (SDS) on all of its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Chemrose recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.

Ready-to-Use Toilet Cleaner

Product Data Sheet

## CAUTION

Acid-based cleaner. Avoid contact with skin and eyes. Because it is an acidic product, Flash is not suitable for use on marble, terrazzo, formica or laminex surfaces. Never mix Flash with other chemicals. Never mix with bleach.

## HEALTH

Concentrated Flash is classified as hazardous according to the criteria of Safe Work Australia. It is irritating to the skin and causes serious eye damage. Flash is not classified as Dangerous Goods according to the criteria of the Australian Safety and Compensation Council (ASCC). It contains no ingredients that are classed as Toxic.

Flash becomes non-hazardous when diluted to 1 in 13 (7.6%) in water. Please refer to the Safety Data Sheet for more information.

## QUALITY

The design, manufacture, and supply of all Chemrose products is controlled by the Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 “Quality Management Systems – Requirements”.

Certification available on request.

## DISPOSAL INFORMATION

### 1. Used solutions

Used Solutions of Flash should be poured into a drain or trough that leads to the sewer system or a septic tank. These systems have a method for treating and breaking down the waste. Used solutions of detergent should not be poured into stormwater drains or down driveways as these drains are designed for rain water and ultimately lead to the local river system. Although Flash has a low aquatic toxicity, detergents in general are not good for aquatic wildlife.

### 2. Unused product

It is best to keep the product and use it up! If this is not possible, try to give it to someone who can use it. (Make sure the product is in its original, labelled container).
If there is no alternative but disposal, it is safe to pour modest quantities of this product down the drain (to sewer) with running water. Leave the cold tap running for a few moments afterwards as this dilutes the product and reduces the concentration in the waste water. Remember, do not mix different cleaning products together during disposal!

### 3. Empty packaging

Bottles
Our 5L bottles are made from HDPE (polyethylene) or PET which can be recycled. You can dispose of these containers via the kerbside collection program or other recycling system. Flash containers will be cleaned and reused if returned to Chemrose Suppliers Pty Ltd., significantly reducing plastic usage and waste.

Cardboard cartons
Our cartons contain a minimum of 70% of recycled cardboard and/or paper. Used boxes should be flattened and recycled in OCC (old corrugated cardboard) or mixed waste paper recycling programs.

Chemrose maintains Safety Data Sheets (SDS) on all of its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Chemrose recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.
