Strike

Spray & Wipe Cleaner

CHEMROSE

Product Data Sheet

Strike is a fast-acting spray and wipe cleaner that breaks down grease and grime easily, leaving behind a streak-free surface with just one pass. It has a mild citrus perfume and is suitable for desks, tables, doors, walls, fittings, painted surfaces, and all other washable surfaces.

BENEFITS

- ✓ Dries streak-free!
- ✓ Works in one pass
- ✓ Breaks down grease & grime quickly
- ✓ Non-hazardous
- ✓ Non-toxic
- ✓ Low-indoor air pollution

ENVIRONMENTAL CARE

Strike was developed from carefully selected ingredients providing many environmental benefits including:

- ✓ biodegradable surfactants
- ✓ renewable & regrowable ingredients
- ✓ low VOCs

- × phosphates
- × ammonia
- × alkyl phenol ethoxylates
- × phthalates
- × heavy metals
- × ozone-depleting substances
- × amines
- × butyl solvents
- × chlorine

PROPERTIES

Colour: Clear
Odour: Lemon
pH: 10.0 ± 0.5
Foam Level: Medium height
Shelf Life: Minimum 1 year (5°C - 50°C)

AVAILABLE SIZES

Available in 5L

HOW TO USE

Dilute 1 part Strike in 5 to 20 parts with warm water, depending on soilage. Spray onto surface. Spread and wipe off with a damp cloth or sponge. Rinse out the cloth or sponge regularly in clean, warm water.

NOTE: This is a guide only. Concentration may be varied according to the degree and persistence of soilage.

WHERE IT WORKS

Strike is excellent for cleaning all types of walls, tabletops, benches, doors, Laminex, painted surfaces, vinyl, and all other washable surfaces.

HOW IT WORKS

Strike is a fast-acting, water-based cleaner containing plant-derived surfactants and is formulated for rapid soil attack with minimal residue left behind by dissolving and removing soilage from all hard surfaces.

Chemrose maintains Safety Data Sheets (SDS) on all of its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Chemrose recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.

CHEMROSE

Product Data Sheet

HEALTH

Concentrated Strike is classified as hazardous according to the criteria of Safe Work Australia. It is irritating to the skin and causes serious eye damage. Strike is not classified as Dangerous Goods according to the criteria of Safe Work Australia. It contains no ingredients that are classed as Toxic.

Strike becomes non-hazardous when diluted to 1 in 10 (10%) in water. Please refer to the Safety Data Sheet for more information.

QUALITY

The design, manufacture, and supply of all Chemrose products is controlled by the Quality Management System which is registered and externally audited by SAI Global as complying with the requirements of AS/NZS ISO 9001 “Quality Management Systems – Requirements”.

Certification available on request.

DISPOSAL INFORMATION

1. Used solutions

Used Solutions of Strike should be poured into a drain or trough that leads to the sewer system or a septic tank. These systems have a method for treating and breaking down the waste. Used solutions of detergent should not be poured into stormwater drains or down driveways as these drains are designed for rain water and ultimately lead to the local river system. Although Strike has a low aquatic toxicity, detergents in general are not good for aquatic wildlife.

2. Unused product

It is best to keep the product and use it up! If this is not possible, try to give it to someone who can use it. (Make sure the product is in its original, labelled container). If there is no alternative but disposal, it is safe to pour modest quantities of this product down the drain (to sewer) with running water. Leave the cold tap running for a few moments afterwards as this dilutes the product and reduces the concentration in the waste water. Remember, do not mix different cleaning products together during disposal!

3. Empty packaging

Bottles

Our 5L bottles are made from HDPE (polyethylene) or PET which can be recycled. You can dispose of these containers via the kerbside collection program or other recycling system. Strike containers will be cleaned and reused if returned to Chemrose Suppliers Pty Ltd., significantly reducing plastic usage and waste.

Cardboard cartons

Our cartons contain a minimum of 70% of recycled cardboard and/or paper. Used boxes should be flattened and recycled in OCC (old corrugated cardboard) or mixed waste paper recycling programs.

Chemrose maintains Safety Data Sheets (SDS) on all of its products. These sheets contain information that you may need to protect your employees and customers against health or safety hazards associated with our product. Chemrose recommends that you obtain a copy of the respective SDS sheet prior to using this product. The information in the Product Data Sheet is based on data we believe to be reliable. It is offered in good faith, but without guarantee, as conditions and methods of use of our product are beyond our control.
